THE Subscribers are still manufacturing Steel Amalgum Bells, at one third the cost of the Brass Composition Bells, warranted to stand for one year. As there are about 1,000 of our home manufactured Bells now in use, some of which have been used for over seven years, they are known, and wherever they have been introduced, our patrons will certify that

cheapness, durability, and force of tone,

two years, while this weakness was
on me, and afterwards, I sought
advice, employing, at different times,
doctors, and medicines of different kinds,
described by friends, but of no avail.
I continued to get worse and worse, until the
summer of 1868, when I was induced to travel

great Shooshobuns Remedy by reading it performed, in a pamphlet. At this time I began to feel the weakness in my legs. I was taking two boxes of the pills and I am returned to health. I never expected better, but simply tried the medicine as of *fortiori* hope. This case of mine was private one, but known to all my neighbors and friends; and to any one afflicted as I have only to say try the Shooshobuns Remedy. I believe it will cure you. MARY ANN DOWD.

Tyendinaga Agricultural Exhibition.

The annual Exhibition of the Tyendinaga Agricultural Society, took place at Blenheimville, on Saturday, the 2nd October. The weather was delightful, and from far and near came bonnie lads and lasses, and young men and maidens, and middle aged men and matrons, and old men and old dames, bringing with them the products of the field, of the garden, of the dairy, of the

own husbandry. The attendance was larger than usual, and the number of entries was about one hundred greater than last year. In some departments there was a great improvement, while in others there was a falling off as compared with previous exhibitions. Of horses there was a large increase in Tyndale and several years. In fact, the Tyndale and well proportioned carriage horses, the exhibition particularly excelled. The show of Cattle was not so good. There were a few of improved breeds in milk cows, two or three very fine bulls, and some good calves, but the principal part of the cattle was of a poor quality. In Sheep there was a decided improvement over former years; and the same may

There was a large display of carriages and waggon; in addition to the local exhibitors there was the manufacture of Vermilyea, of Belleville, Hart & Son, of Pictou, and from makers in Nanapan. A few ploughs, harrows, fanning mills, straw cutters, &c., from the Foundry of J. M. Walker & Co., Belleville, and belonging to members of the Society, constituted the show in Farming Implements.

It was in Orest and variety of the exhibi-
tion particularly noticeable. The exhibi-
tion was a variety of all kinds of grain
but the quality was of an excellent char-
acter, while of Potatoes, Roots, Cabbage,
Squashes, Pumpkins, Onions, &c., the show
was magnificent. The show of Tomatoes
was particularly fine. In the Ladies' De-
partment there was a very fair exhibition
of coverlets, shawls, flannels, carpets, wored
work, embroidery, and other fancy work,
though we have seen a greater variety in
previous exhibitions of this Society. The
Dairy Department was poorly represented
there being only eight lots of butter and

The judges said, however, the butter was all so good that it was difficult to decide in deciding which was best. The show fruit was poor, there only being two or three lots. In the leather department the was some well made harness, and boots and shoes. Taking it altogether the exhibition was a very improvement on former shows. The following is the
